WHY CREWS CHOOSE EG-50

The **Enviro-G® EG-50 Spill Response Kit** is engineered for fast, effective containment of aqueous and organic liquid spills — oil, hydrocarbons, and more — in the field, in the shop, or on industrial sites. It gives utility crews, field techs, and maintenance teams everything needed to respond immediately to petroleum leaks, hydraulic releases, diesel spills, and other emergency response situations. Housed in a weather-resistant rotomolded case, it stays compact, organized, and ready for deployment.
